N.S.W.

~~22202.8. Cudal.~~ <sup>about</sup> Along Orange road.  
 204.6. Cemetery. <sup>Fipurga grassa, Coniaca m. lemnostum.</sup> *Albens melliadora*, slightly  
<sup>Pycnostichus sp. n. Cryptobathus & Chrysops fabae</sup>  
 Humped on red-brown sandy loam.  
 Pasture outside cemetery *Stipa "variabilis"*  
 + *Danthonia*. Inside the gate the pasture has  
 been heavily grazed, leading to dominance  
 of *Hustleria melliadora*, etc. A small area  
 consists of *Themeda* + *Poa*, with no  
*Helichrysum*. This is broken up by heavily  
 grazed patches, as though animals had  
 been tethered for some time + had eaten  
 the ground bare. *Fipurga* from outside  
 cemetery. *Phaullocline mullatum*.

221.5. Molong. 226.8. Cemetery, approx NW-  
<sup>Moraba sp.</sup>  
 of town. Very large, with dense tall *Themeda*,  
 some *Poa* + a very little *Helichrysum*  
 throughout. Cleared from *melliadora* +  
*stuartiana*. (Cemetery is reached by  
 turning off Mullington road <sup>to left</sup> at Castle St,  
 0.9 ml. from ~~centre of~~ P.O. Proceed along  
 Castle St. for 0.9 ml, then turn right for

O. 3rd. Cemetery on left.)
